

**Amendments to the Claims:**

This listing will replace all prior versions, and listing, of claims in the application:

**Listing of Claims:**

- 1.(Currently Amended)      A case for storing and carrying a [light and moisture protected] product, comprising:
- a product container having an interior compartment for containing and exposing at least one unit of product therein, said product container further having a first latching member, said at least one unit of product being wrapped and sealed in a flexible barrier material to prevent high humidity and moisture penetration;
- a recloseable lid attached to said product container, said recloseable lid having a second latching member configured for engaging said first latching member in said product container; and,
- a finger release structurally associated with said recloseable lid for disengaging said first latching member from said second latching member.
- 2.(Original)      The case recited in claim 1 wherein said product container and said recloseable lid each comprises a high density polyethylene material.
- 3.(Original)      The case recited in claim 1 wherein said first latching member is a notch formed in a top edge exterior portion of said product container and said second latching member is a protruding lip configured for engaging said notch.
- 4.(Original)      The case recited in claim 3 wherein said protruding lip further includes a finger latch release for disengaging said protruding lip from said notch.
- 5.(Original)      The case recited in claim 1 further including a carrying strap attached to an exterior portion of said product container.

6.(Original) The case recited in claim 5 wherein said carrying strap is molded to said exterior portion of said product container.

7.(Original) The case recited in claim 1 further comprising a clip affixed to an exterior portion of said product container.

8.(Original) The case recited in claim 1 further containing a product partition removably arranged in said interior compartment for separating an individual product.

9.(Original) The case recited in claim 1 wherein said recloseable lid is hingably attached to said product container.

10.(Original) The case recited in claim 8 wherein said product partition is made of a flexible paperboard material.

**New Claim:**

11.(New) The case recited in claim 1 wherein said flexible barrier material comprises a heat sealed aluminized thermoplastic material.
